

FIGURE 1

Figure 1 is a line graph showing the fraction of dialyzers still in service versus use number. The y-axis is labeled 'Fraction of dialyzers still in service' and ranges from 0 to 1.2. The x-axis is labeled 'Use number' and ranges from 0 to 30. Two curves are plotted: Curve A (solid line) and Curve B (dashed line). Curve A starts at 1.0 and drops to 0 by use number 20. Curve B starts at 0.9 and drops to 0 by use number 25. A legend box is present in the upper right.

Use number	Fraction of dialyzers still in service (Curve A)	Fraction of dialyzers still in service (Curve B)
0	1.00	0.90
5	0.50	0.80
10	0.30	0.60
15	0.25	0.40
20	0.00	0.20
25	0.00	0.05
30	0.00	0.00
